How to write a good personal statement

How to prepare for an Interview

What makes a good job application?

Exploring personal branding – online and offline

Exploring employment and self-employment

Exploring the current job market

Jobs and Careers Fair Website:

<https://greaterlincsjobsfair.co.uk/>

Up and Coming Events:

<https://greaterlincsjobsfair.co.uk/page/upcoming-fairs>

The Careers Fair link above will go live once a month for a 2 hour period, during this time students would be able to chat live with the businesses that are in attendance, the fair can also be accessed outside this 'live' window to view each of the stands. The next live fair is on Monday 10am-1pm. We currently have 75 businesses/employers attending on Monday, see attached list.

Webinar Series for Students.

Starting in March webinars will run covering each of the priority sectors across Lincolnshire. Each session will be around 45 minutes and feature guests from businesses working in the sector, these will focus on the opportunities available. These will be student focussed and will be suitable for Y9 upwards, a worksheet allowing the students to reflect and consolidate learning from each session will be available. A live Q&A will also feature. The likely first webinar will be on Agri-Food, followed by Low Carbon, Manufacturing, Defence, and Health & Care. As soon as we have details on when this will run I will let you know.

SIEMENS – Women in STEM

This February, Siemens Energy and Stemettes invite you to a STEMtastic celebration of women in STEM!

Meet the Stemettes with Siemens Energy is a Stemettes style panel discussion in celebration of some of the inspiring women in Siemens Energy across various areas of STEM

We'll discuss different ways people begin their STEM careers and hear from an impressive panel about their unique experiences in the industry. We'll then head over to Remo for a follow-on networking session (Please note certain regions will be given priority for the networking session, therefore, a limited amount of participants will be able to join this follow-on session and will get a separate e-mail confirming their spot).

We're hoping to explore career options, A-level choices, university degrees and what our inspiring panellists do in their day-to-day at Siemens Energy. You'll be able to ask the panel questions from the comfort of your home, so grab your free ticket and start getting your snacks ready for an afternoon full of STEMtastic energy!

Further Guidance

Students looking to find Careers Education related information (CEIAG) can now find a wide range of online resources on the school website via both the students and parents tab at Careers Information. Access the Confident Choices material from the drop down list with a single click, or double click on Careers Information for other material.

Students can also access KUDOS for free at <https://kudos.cascaid.co.uk/#/> using the sign up tab and using the Licence code = surfcode18

Thank you,

Careers @LCHS
